Rod Jackson, Executive Director

September 20, 2023

Good morning,

Starting today, September 20, 2023, the city has begun road construction on our section of Poplar Street. During this time, you will be unable to drive on the street or to park at the front door. They are hoping to be done within a week or two depending on weather and any setbacks they may encounter.

If you are needing picked up for an outing, we are asking you to use the Health Center entrance on Seminary street. All transportation and activity outings will be using that entrance as well. The Poplar Street front door will still be open during this time for anyone who would like to walk in from the sidewalk, just be mindful of the construction workers.

Thank you for your understanding and if you have any questions, please contact the front office at 765-653-5148.

Sincerely,

Julie Dozier
Life Enrichment Director
